The nature of consciousness, the mechanism by which it occurs in the brain, and its ultimate place in the universe are unknown. We proposed in the mid 1990's that consciousness depends on biologically 'orchestrated' coherent quantum processes in collections of microtubules within brain neurons, that these quantum processes correlate with, and regulate, neuronal synaptic and membrane ...

Subjective vs Objective . In stories, newspapers, and the spoken word, people all over the world are trying to convince you to think as they do. They are bombarding you with facts and figures, opinions and projections.

### **Difference Between Objective and Subjective**

Astrobiology, formerly known as exobiology, is an interdisciplinary scientific field concerned with the origins, early evolution, distribution, and future of life in the universe. Astrobiology considers the question of whether extraterrestrial life exists, and if it does, how humans can detect it.. Astrobiology makes use of molecular biology, biophysics, biochemistry, chemistry, astronomy ...
