Sharks are a group of elasmobranch fish characterized by a cartilaginous skeleton, five to seven gill slits on the sides of the head, and pectoral fins that are not fused to the head. Modern sharks are classified within the clade Selachimorpha (or Selachii) and are the sister group to the rays.However, the term "shark" has also been used for extinct members of the subclass Elasmobranchii ...

Lampreys (sometimes inaccurately called lamprey eels) are an ancient extant lineage of jawless fish of the order Petromyzontiformes, placed in the superclass Cyclostomata.The adult lamprey may be characterized by a toothed, funnel-like sucking mouth. The common name "lamprey" is probably derived from Latin lampetra, which may mean "stone licker" (lambere "to lick" + petra "stone"), though the ...

Materials: The Earth's Materials module taps into student knowledge immediately by beginning with a story about a class rock collection. Students use a dichotomous Key to sort materials into natural and manmade and sort further using the adjectives rough and smooth; this activity builds both science and language skills as students classify materials and build deeper understanding of new ...

Note: Paragraphs are numbered in small case in order to communicate with reviewers. 1. Introduction. One of the problems in understanding evolution is that it may be defined in different ways.According to the Random House Webster's College Dictionary (1999), biological evolution is a

change in the genetic makeup of a population from generation to generation.

In 1994, the Friends of the Jepson Herbarium began a program to provide educational opportunities for a broad audience of professional and amateur botanists. Today, the program continues to serve as a liaison between the scientific community and the public, a role we are dedicated to as we enter our 26th year of public programs.

In this book I have tried to explain why I think that percentages are "the most useful statistics ever invented". I hope you agree. But even if you don't, I hope you now know a lot more about percentages than you did when you started reading the book. I also said I would tell you why 153 is one of my favorite numbers.

Percentages: The most useful statistics ever invented

3.Implications for human individuals. 3.1 The immanent functional expansion of phone usages. Many studies show that cell phone usage is subject to functional expansion, because users gradually change habits and learn to apply the new technology for a growing variety of purposes and in a widening range of situations.
