Biodiversity provides fundamental ecosystem services that are of paramount importance for human well-being and consider humans as part of the marine ecosystem. Hence, understanding the relationships between human activities and their various impacts on marine ecosystems are also relevant to the specialty section Marine Ecosystem Ecology.

### **Marine Ecosystem Ecology - Frontiers**

The Marine Mammal Protection Act (MMPA) was the first legislation to mandate an ecosystem-based approach to marine resource management. Under the MMPA, Congress directed that the primary objective of marine mammal management should be to maintain the health and stability of the marine ecosystem and, when consistent with that primary objective, to obtain and maintain optimum sustainable populations of marine mammals.
