Clever Hans (in German: der Kluge Hans) was an Orlov Trotter horse that was claimed to have performed arithmetic and other intellectual tasks.. After a formal investigation in 1907, psychologist Oskar Pfungst demonstrated that the horse was not actually performing these mental tasks, but was watching the reactions of his trainer. He discovered this artifact in the research methodology, wherein ...

Quipu - An Inca Counting System . Imagine, if you will, a highly advanced civilization. This

civilization rules over a million or more people, they built vast cities, developed extensive road systems, treated their citizens fairly and constructed stone walls so tight not even a knife blade can pass between the huge boulders.

Number Systems - Wichita State University

I wasn't going to put this section in, but I have to. I wanted to keep the website as free from handwavium as possible. However, while Faster-Than-Light travel is about as handwavium as you can get, it is unfortunately the sine qua non of interstellar space opera. Space opera with no StarDrive is like chocolate cake without the chocolate.
