PhysioEx™ 9.1 Ordering Information

In common usage, the word "human" generally refers to the only extant species of the genus Homo—anatomically and behaviorally modern Homo sapiens.. In scientific terms, the meanings of "hominid" and "hominin" have changed during the recent decades with advances in the discovery and study of the fossil ancestors of modern humans. The previously clear boundary between humans and apes has ...

Study Exercise 15: Gross Anatomy of the Muscular System flashcards taken from the book Human Anatomy & Physiology Laboratory Manual.

Exercise 15: Gross Anatomy of the Muscular System ...

Dental anatomy is a field of anatomy dedicated to the study of tooth structure. The development, appearance, and classification of teeth fall within its field of study, though dental occlusion, or contact between teeth, does not. Dental anatomy is also a taxonomic science as it is concerned with the naming of teeth and their structures. This information serves a practical purpose for dentists ...
