As the globalization of supply chain management continues to gain speed and strength, the 'one-size-fits-all' approach to leadership is no longer sufficient to effectively engage an increasingly diverse, multicultural, and international array of project and program stakeholders.

### **CONNECT 2019 | 5.17.19**

Akin to a process management "heuristic", which on the basis of previous research, experience and judgment seems likely to generate a viable - though not guaranteed optimal - solution to a problem (Foulds, 1983), the CVI trade-off implications of the process management triangle are that "more of one means less of the other two". For example, more variability reduction effort could ...
